

SNAP 2018 ACTUAL PAPER

SECTION I

Analytical & Logical Reasoning

1. Which is the seventh number in the sequence 5, 9, 16, 29, 54,

(1) 300 (2) 200 (3) 330 (4) 103

2. Which of the below pendulums will move the slowest, if each one of them is displaced by an angle of 60° from the center?

(1)

(2)

(3)

(4)

3. Lectures by industry experts have to be scheduled in Marketing, Finance, Operations, Organisational Behaviour and Information Systems. This has to be scheduled on a weekday (Monday to Friday). Only one lecture can be scheduled per day. Marketing cannot be scheduled on Tuesday as it is inconvenient for the expert. Expert for Finance is available only on Tuesday. As Information Systems and Finance are always considered important, Information Systems has to be scheduled immediately on the day following the Marketing lecture. The Dean has decided that Organisational Behaviour lecture has to be scheduled immediately before the day of Marketing lecture. Finally the schedule is prepared which satisfies all conditions.

Which lecture is scheduled on Monday?

(1) Finance (2) Marketing (3) Information Systems (4) Operations

4. If Golu is son of Molu, Molu and Polu are sisters, Pillu is Polu's mother, Gannu is son of Pillu, which of the following statements is definitely true?
- (1) Golu and Gannu are cousins (2) Golu's nephew is Gannu
 (3) Golu's maternal uncle is Gannu (4) None of the option is correct
5. If Pig : Farrow and Lion : Cub, then Bear : ____
- (1) Goat (2) Cygnet (3) Cub (4) Foal
6. A fast train leaves Chennai to Bengaluru and at the same point in time a slow train leaves from Bengaluru to Chennai. The fast train moves at a speed of 60 km /hr and the slow train moves at half of the speed of the fast train. Both these trains meet at a point after some time. Which of these trains are further away from Chennai when they meet? (Do not consider the length of the train)
- (1) The fast train is further from Chennai (2) The slow train is further from Chennai
 (3) Both the trains are equidistant from Chennai (4) None of the option is correct
7. Given the series Z, Y, X, V, S, the next alphabet will be?
- (1) N (2) O (3) L (4) K
8. If PUNE / GOA = 1 and CHENNAI / GOA = 1.5, then MUMBAI / PUNE = ?
- (1) 1.25 (2) 1 (3) 1.5 (4) 1.75

9. Find the missing number (?)

- (1) 26 (2) 28 (3) 32 (4) 34

10. Find the missing number (?)

- (1) 13 (2) -70 (3) 15 (4) -60

- 11.

If A and B are represented by the above diagrams as two circles then shaded area is represented as?

- (1) $A \cap B$ (2) $(A \cup B) - A$
 (3) $(A \cap B) \cup A$ (4) None of the option is correct

12. Unmesh is facing Jayesh and when he hears a bell ring he turns towards Rajesh by making 90 shift. He continues to do this every time the bell rings. If the bell rang 3926 times, whom will Unmesh be facing?

13. Ram places three identical cones of radius on a table in such a way that each cone base touches the other two, also the altitude of the cone is perpendicular to the table. The radius of the circle drawn through the cone vertices would be?

- (1) Smaller than r (2) Equal to r
 (3) Larger than r (4) Cannot be determined

14.

A

B

C

Three lamps A, B and C as shown in the figure above are burning using oil as its source of energy. Three incense sticks, E, F and G are taken. E is dipped in oil, F is dipped in petrol and G is dipped in water and are immediately placed over the wick of A, B and C respectively. Then

- (1) A will glow bright, B will glow bright and C will be put off
 (2) A will be put off, B will glow bright and C will be put off
 (3) A, B and C will keep glowing
 (4) C will be put off and the status of A and B be cannot determined

15. Find the missing number in the series:

16, __, 68, 88

- (1) 06 (2) 08 (3) 36 (4) 46

16. A Men Singles Tennis Tournament is being held out at Mumbai. 30 players participated in the tournament. There is a rule that is implemented, the rule states that, if a player loses a match then he is eliminated from the tournament. How many matches have to be played to decide the winner of the tournament?

- (1) 30 (2) 15 (3) 29 (4) 10

17. Ramu has several friends and all of them are well settled in India. $1/5^{\text{th}}$ of Ramu's friends went to Mumbai and $1/3^{\text{rd}}$ of his friends went to Delhi, three times the difference of these two went to Chennai and only one went to Pune. How many of his friends went to Mumbai?

- (1) 15 (2) 3 (3) 10 (4) Cannot be determined

18. There are 3 closed cartons in a room. One of the cartons contains cash. There is a printed message that is displayed outside each carton. Only one message is True and the other two messages are False. The first carton has the message: Cash is not in the Carton. The second carton has the message: No cash in the Carton. The third carton has the message: Cash is in the second carton. Which carton has the cash?

- (1) First (2) Second (3) Third (4) Cannot be determined

19. The figure below has been made by folding paper as given in one of the options, choose the correct option.

(1)

(2)

(3)

(4) None of the option is correct

Trusted for Success

20. The figure given has been made by folding paper as given in one of the options, choose the correct option

(1)

(2)

(3)

(4) None of the option is correct

21. Four classes Rural Marketing, Digital Marketing, International Marketing and Service Marketing were taught in four consecutive periods of one hour each starting from 8.00 am on a week day.

Read the statements and find out the probable option which can be sufficient to answer the question:

At what time was the Digital Marketing class scheduled?

Statement I. International marketing class ended at 10.00 am which was preceded by Service Marketing.

Statement II. Rural Marketing was scheduled as the last class.

Statement III. International Marketing was immediately followed by Digital Marketing.

- (1) I only
 (2) II only
 (3) I and II together or I and III together
 (4) II and III together

22. Read the statements and find out the probable option which can be sufficient to answer the question:

What is the total monthly salary of Kakade?

Statement I. Kakade's basic salary is Rs.100/- more than Madan's salary, who also serves in Kakade's company.

Statement II. Other allowance taken by Madan besides his basic salary is $\frac{1}{10}$ th of Kakade's salary.

Statement III. Madan's basic salary is Rs.15000/- per month.

- (1) II and III together (2) I and III together
(3) I, II and III together (4) Data insufficient

23. Babu is younger than Gopu. Somu is older than Pappu. Read the statements and find out the probable option which can be sufficient to answer the question:

Who among them is the oldest?

Statement I. Somu is older than Babu.

Statement II. Gopu is older than Somu.

Statement III. Pappu is the youngest of all.

- (1) I and II together (2) III Only
(3) I, II and III together (4) II Only

24. If in a coded language, MASTER is written as 79 7 115 121 31 109 then LAUGH will be written as ____

(Note: - Do NOT include any spaces in your answer)

25. There were 12 friends A, B, C, D, E, F, G, H, I, J, K, & L. In the year 1996, A celebrated his birthday on January 11 and it was Thursday. B celebrated his birthday on February 20, which was a Tuesday and C, D, E, F, G, H and I, celebrated on April 05 (Friday), May 05 (Sunday), June 05 (Wednesday), July 05 (Friday), August 05 (Monday), September 05 (Thursday) and October 05 (Saturday) respectively. J, K and L celebrated their birthday on November 15 (Friday), March 15, (Friday) and December 15 (Sunday) respectively. Before the year 2025, when will all of them celebrate their birthdays again on the same day as they did in 1996?

(Note:- DO NOT include spaces in your answer)

26. If January = 10125, June = 10605, then July = ?

(Note:- DO NOT include spaces in your answer)

27.

In the figure given above there are maximum ____ number of triangles that can be identified

(Note:- DO NOT include spaces in your answer)

28. Rohan (Coded as 1), Pawan (Coded as 2), Mohan (Coded as 3), Sohan (Coded as 4) are waiting for a group photo to be taken. The photographer arrives to take the photo. They decide to stand in a straight row and inform the photographer to take photo by facing them. Mohan is to the left of Pawan and Sohan is to the right of Pawan. Rohan is between Sohan and Pawan.

The code of the person who would be second from the left for the photographer is _____?

(Note:- DO NOT include spaces in your answer)

Directions for questions 30 and 31: Please read the following information and answer the questions.

There are 12 seats in total which are arranged as 6 in a row facing each other. Ten people have occupied the seats in such a way that 5 are seated in each row and there is equal distance between adjacent seats. In row 1, Sadhana, David, Lakshmi, Sonal and Anu are seated and all of them are facing south. In row 2, Lily, Suresh, Deepika, Mahesh and Arvind are sitting and all of them are facing north. One seat is vacant in each row. In the given seating arrangement described above, each person seated in a row faces another member of the other row or a vacant seat. Each member likes only one activity or sport namely, kabaddi, Cricket, Baseball, Chess, Wrestling, Boating, walking, Running, Swimming and Skating. Mahesh sits third to the right of Deepika and likes Chess. Only 2 people sit between Suresh and the vacant seat. Suresh sits at one of the extreme end. Deepika does not like Kabaddi and Running. Suresh does not like Wrestling and Baseball. Anu is not an immediate neighbor of Lakshmi. David likes Skating. The one who likes Baseball faces the other one who likes Running. Vacant seat of row 1 does not face Mahesh and he does not sit at any extreme ends. The one who likes baseball sits opposite to the one, who sits third right of the one, who sits opposite to Mahesh. Lakshmi is not an immediate neighbor of Sonal. Arvind, who neither likes Wrestling nor Boating does not face vacant seat and sits opposite to the person who likes Kabaddi. Deepika does not sit at extreme ends. Sonal faces Deepika. Vacant seats are not opposite to each other. Two seats are there between Lakshmi and David. David sits third right of the one who likes Walking. The one who likes swimming faces the one who likes chess. The person who likes kabaddi and running are adjacent to each other. Vacant seat of the row 1 is not an immediate neighbor of Sonal. Lakshmi is located at an extreme end.

29. What sport does Lily like?

(1) Cricket

(2) Baseball

(3) Wrestling

(4) Boating

30. What sport does Deepika like?
(1) Cricket (2) Baseball (3) Wrestling (4) Boating
31. Who is between David and Sadhana?
(1) Lakshmi (2) Sonal (3) Anu (4) Vacant Seat
32. Who among the following sits to the immediate right of the person who faces the vacant seat?
(1) The person who likes running (2) The person who likes walking
(3) The person who likes boating (4) The person who likes Cricket
33. Find the statement which is false
(1) Sadhana likes boating (2) Mahesh likes chess
(3) Deepika likes baseball (4) Sonal likes running
34. Who face vacant seats?
(1) David, Lakshmi (2) David, Lily
(3) Anu, David (4) Lily, Sadhana
35. Which sports do Arvind, Suresh, Sadhana and Anu like?
(1) baseball, boating, swimming, kabbadi
(2) cricket, boating, kabbadi, swimming
(3) cricket, swimming, boating, kabbadi
(4) cricket, boating, swimming, kabbadi

Trusted for Success

SECTION II

Quantitative, Data Interpretation & Data Sufficiency

36. $\left\{ \frac{2^{1/2} \times 3^{1/3} \times 4^{1/4}}{10^{-1/5} \times 5^{3/5}} \div \frac{3^{4/3} \times 5^{-7/5}}{4^{-3/5} \times 6} \right\} \times 2 =$

- (1) 10 (2) 20 (3) 30 (4) 40

37. In the figure given below $L_1 \parallel L_2$ then $x =$ _____

- (1) 30 (2) 45 (3) 60 (4) Cannot be determined

38. If h, c, v , are the height, the curved surface area and the volume of a cone, then $3\pi v h^2$ is

- (1) $9v^2 - c^2 h^3$ (2) $c^2 h^2 - 9v^2$ (3) $c^2 h^2 - 9v^3$ (4) $c^2 h^2 - 16v^2$

39. ABC Paints Ltd. is planning to create different combination of dyes. The research team has decided they will be using five different green dyes, three different red dyes and four different blue dyes. How many combinations of dyes can be created by ABC Paints Ltd., by including at least one blue and one green dye?

- (1) 5720 (2) None of the option is correct
(3) 60 (4) 31

40. The expression $(a - b)^3 + (b - c)^3 + (c - a)^3$ can be factorized as

- (1) $(a - b)(b - c)(c - a)$ (2) $3(a - b)(b - c)(c - a)$
(3) $3(a + b)(b - c)(c + a)$ (4) None of the option is correct

41. Sonal and Meenal appear in an interview for same post having two vacancies. If $1/7$ is Sonal's probability of selection and $1/5$ is Meenal's probability of selection then what is the probability that only one of them is selected?

- (1) $1/7$ (2) $2/7$ (3) $3/5$ (4) $1/5$

42. If $\log_{10} 11 = a$ then $\log_{10} (1/110)$ is equal to

- (1) $-a$ (2) $(1 + a)^{-1}$ (3) $1/10a$ (4) $-(a + 1)$

43. A man purchased a TV and fridge. If the price of TV is 150% of price of fridge then price of fridge is what percentage of the total cost of TV and fridge?

- (1) 30 (2) 40 (3) 45 (4) 50

44. During the placement season of a class, 21 students got shortlisted for company A, 26 got shortlisted for company B and 29 got shortlisted for company C. 14 students got shortlisted for both A and B, 12 students got shortlisted for A and C and 15 for both B and C. All the companies shortlisted 8 students from the class. Then what is the ratio of number of students who got shortlisted for only B and number of students who got shortlisted for only C?

- (1) 1:1 (2) 1:2 (3) 2:3 (4) 3:2

45. Pune taxi services has a fixed charge plus a variable charge based on the distance covered. For travelling 10km the total fare paid by Somu is Rs.150 and for a journey of 15km the total fare paid by Ramu is Rs.220. Then Tomy will pay ___ as the total fare for travelling a distance of 25 km.

- (1) Rs. 350 (2) Rs. 380 (3) Rs. 360 (4) Rs. 400

46. In the following diagram there are four semi circular arcs and a shaded region. The diameter of largest semi circle is 28cm and of the smallest is 7cm. The area of shaded region is ___

- (1) 98.75π (2) 120.5π (3) 105.5π (4) 110.25π

47. An umbrella is made by stitching 10 triangular pieces of cloth of two different colours each piece measuring 30cm, 60cm, 60cm. How much cloth of each colour is required for umbrella?

- (1) $1015\sqrt{45}$ (2) $1125\sqrt{15}$ (3) $1220\sqrt{45}$ (4) $1235\sqrt{15}$

48. If $R_c = m \ln\left(1 + \frac{R_m}{m}\right)$ then R_m is equal to

- (1) $R_m = \ln\left(1 + \frac{R_c}{m}\right)$ (2) $R_m = \ln\left(1 + \frac{R_c}{e}\right)$
 (3) $R_m = m(e^{R_c/m} - 1)$ (4) Cannot be determined

49. If a labor output function for a laundry service is described by the following equation:

$O = (a^0 - 4L^0)^6$, where L denotes Labour and O denotes output. Then, output _____

- (1) Increases as labor increases
 (2) Decreases as labor increases
 (3) Remains constant irrespective of the amount of labor
 (4) None of the option is correct

50. Assume that the taxes on petrol is 125% of the price of petrol per litre as received by the retailer minus the taxes. If in the last week, the petrol prices per litre as received by the retailer minus the taxes was 35, 34, 35.5, 37, 37.5 and 38, the average amount of tax collected per litre of petrol is
- (1) 45.2 (2) 46.1 (3) 44 (4) None of the option is correct
51. Big Bang Theory cast wishes to find out the number of ways in which the word "ASTRONAUT" can be scrambled. They find that the number of ways in which it can be put to an unscrambling puzzle are _____
- (1) 362880 (2) 181440 (3) 60480 (4) 90720
52. Students of an MBA school have got together to constitute a fund where each student has contributed Rs. 10000. This group of 20 students laid down certain rules for investment where it was agreed that 50 percent of the fund would be invested in riskless government securities while the rest 50 percent would be invested in equities. At the end of the year the group realizes that the crash in the stock market has left them with zero return on equities but 1 percent dividend gain on the shares bought. The return on the riskless government security has been 7.8 percent in the last year. If the gains are to be divided equally, the gain per student is
- (1) 2.2 percent (2) 4.4 percent
(3) 6.6 percent (4) None of the option is correct
53. In the figure given below, a Cylinder is inserted into a cone and the vertical height of the cone is 30 cm. The diameter of the cylinder is 8 cm. What is the volume of the cone? The base of the cylinder and the base of the cone are on the same plane.

- (1) $3000\pi\text{cm}^3$ (2) $4860\pi\text{cm}^3$
(3) $2800\pi\text{cm}^3$ (4) Cannot be determined
54. Nisha went to buy three types of stationary products, each of them were priced at Rs. 5, Rs. 2 and Rs. 1 respectively. She purchased all three types of products in more than one quantity and gave Rs. 20 to shopkeeper. Since the shopkeeper had no change with him/her; he/she gave Nisha three more products of price Rs. 1 each. Find out the number of products with Nisha at the end of the transaction.
- (1) 8 (2) 12 (3) 11 (4) 10

55. If the ratio of sides of a rectangle is 2:7 and perimeter is 360 m, then find out its length and breadth.
- (1) 140m, 40m (2) 144m, 36m (3) 160m, 20m (4) 135m, 45m
56. If the price of Sugar increases by 20%, and Salman intends to spend only an additional 5% on Sugar, then find out the percentage decrease in his sugar consumption.
- (1) 5.25 (2) 12.5 (3) 11.75 (4) 10.25
57. A man lends some money to his friend at 5% per annum of interest rate. After 2 years, the difference between the Simple and the compound interest on money is Rs. 50. What will be the value of the amount at the end of 3 years if compounded annually?
- (1) 21325.6 (2) 24512.5 (3) 22252.7 (4) 23152.5
58. Sham is trying to solve the expression:
 $\log \tan 1^\circ + \log \tan 2^\circ + \log \tan 3^\circ + \dots + \log \tan 89^\circ$.
 The correct answer would be?
- (1) 1 (2) $1/\sqrt{2}$ (3) 0 (4) -1
59. Sumit was doing a multiplication, but by mistake instead of taking 25 as one of the multiplier, he took 34. Now, because of this mistake, the answer was 405 more than the correct answer. Find out the answer that Sumit arrived at.
- (1) 1530 (2) 1450 (3) 1350 (4) 1620
60. How many different words can be formed with the word CUSTOM with a condition that the word should begin with M?
- (1) 720 (2) 540 (3) 120 (4) 180
61. The number of ways that 5 Marathi, 3 English and 3 Tamil books be arranged if the books of each language are to be kept together is
- (1) 25920 (2) 9250 (3) 5920 (4) 7480
62. Excluding the halts, the speed of the bus is 50 km/hr and including the halts it is 40 km/hr. For how many minutes does the bus stop per hour?
- (1) 12 (2) 10 (3) 15 (4) 11
63. A is able to do a piece of work in 10 days and B can do the same work in 15 days. If they can work together for four days, what is the fraction of work left?
- (1) $1/2$ (2) $2/3$ (3) $3/2$ (4) $1/3$
64. If 20% of $x = y$, then $y\%$ of 20 is same as
- (1) 10% of x (2) 20% of x (3) 15% of x (4) 4% of x
65. In a running race, when one runner allows another runner to stay ahead at the start of the race, then it is termed as startup and when runners reach the finishing line at the same time, then it is termed as dead heat. In a race of 4 km distance, Anu wins by 600m over Binu. Binu can give a startup of 200m to Cairra in a 4 km race. By how much distance should Cairra get startup so that the race between Anu and Cairra ends in dead heat in the same race of 4 km?
- (1) 700m (2) 750m (3) 770m (4) 725m

66. Mr. Sandeep was placing an order with his carpenter to make wooden boxes to pack his cotton toys which were to be delivered to his friend. Sandeep wanted 2 types of boxes. The larger one with a dimension of $25\text{cm} \times 20\text{cm} \times 5\text{cm}$ and the smaller box with a dimension of $15\text{cm} \times 12\text{cm} \times 5\text{cm}$. Sandeep also told the carpenter that 5% of total surface area is required as extra to cover the overlaps. If the cost of the wood is Rs.4/- cm^2 , the cost of wood required for supplying 250 boxes of each type would be Rs. ____.

(Note:-DO NOT include spaces in your answer)

67. David is trying to solve the expression :-

$$\frac{(4)^2 \times 2^{n+1} - 4 \times 2^n}{(4)^2 \times 2^{n+2} - 2 \times 2^{n+2}}$$

And you help him to do the same and finally arrive at the answer with correct to one decimal which would be ____

(Note:- DO NOT include spaces in your answer)

68. Mahesh has a toy which has the shape of a trapezium. The two sides which are parallel have a length of 60 cm and 77 cm and the other sides are 25 cm and 26 cm. He requests you to calculate the area and you help him to arrive at the correct answer which is ____ sq.cm.

(Note:- DO NOT include spaces in your answer)

69. Ramesh is trying to Simplify the expression

$$(p + q)^3 - (p - q)^3 - 6q(p^2 - q^2) \text{ and if } q = 1.$$

You helped him and the solution arrived was ____

70. In Roman Numerals, a number has been written as MMXVIII. In Arabic numbers it will be ____

(Note:- DO NOT include spaces in your answer)

SECTION III

General English: Reading Comprehension, Verbal Reasoning, Verbal Ability

71. Find the odd man out

- (1) bemuse (2) reuse (3) bewilder (4) confuse

72. Find the odd man out

- (1) epicurean (2) gourmet (3) gastronomist (4) hideous

Directions for questions 73 to 75: Choose the appropriate words from the options given to fill in the blanks in the given sentence.

73. The young man said that he had no _____ riches.

- (1) desire of (2) desire for (3) desirous of (4) desire on

74. She kept all her _____ in the bank locker.

- (1) jewelery (2) jewelries (3) jewellery (4) jewellery

75. I wish _____ that Harish was ill, I would have gone to see him.

- (1) I was knowing (2) I had known (3) I know (4) I would have known

Directions for questions 76 to 78: Choose the correct meaning of the following idiom:

76. Mea Culpa

- (1) I love you (2) I'm capable (3) I will do it (4) I'm to blame

77. Find a correct match of grammatical function with the usage of the word STILL

Function

Usage

1. Noun a. Still waters run deep
2. Adjective b. He wanted some stills for a magazine
3. Verb c. The good news makes me still my fears
4. Adverb d. Will you still love me when I am old and grey?

- (1) 1-d, 2-c, 3-b, 4-a (2) 1-c, 2-a, 3-d, 4-b (3) 1-b, 2-a, 3-c, 4-d (4) 1-a, 2-c, 3-b, 4-d

78. Find a correct match of grammatical function with the usage of the word WELL

Function

Usage

1. Verb a. You never miss the water till the well runs dry
2. Adjective b. Tears well up in his eyes when he reads the letter
3. Noun c. The children behaved well
4. Adverb d. They played hard. It was a well deserved victory

- (1) 1-b, 2-d, 3-a, 4-c (2) 1-a, 2-c, 3-d, 4-b (3) 1-b, 2-a, 3-c, 4-d (4) 1-a, 2-c, 3-b, 4-d

79. Select the pair that best expresses the relationship similar to that expressed in this pair -
turmoil: confusion

- (1) caustic : sarcastic (2) metamorphosis: transformation
(3) assassination : murder (4) chaos : disorder

Directions for questions 80 and 81: Choose the correct conjunction:

80. Do not eat the cake, wait ____ your friends come.

- (1) when (2) for (3) till (4) as

81. Study hard ____ you will not pass the exam.

- (1) for (2) else (3) then (4) still

82. Choose the synonym of : Usurp

- (1) Abdicate (2) Capitulate (3) Adjudge (4) Encroach

83. Choose the synonym of : Flagrant

- (1) Meek (2) Sweet smelling (3) Blatant (4) Flagship

84. Choose the antonym of : Ostentatious

- (1) Modest (2) Pretentious (3) Flamboyant (4) Obtrusive

85. Change the speech: "I have won the race!"

- (1) He said that he had won the race (2) He said that he has won the race
(3) He said he have won the race (4) He said that the race has been won

86. Change the speech: "Wait there till I get back please." she told the boys.

- (1) She requested the boys to wait there till she would return
(2) She asked the boys to wait till I come back
(3) She requested the boys to wait there till she got back
(4) She requested the boys to wait there till she comes back

Directions for questions 87 and 88: The options given below combine to form a meaningful sentence. Identify the erroneous statement from among the options:

87.

1. I am fully aware that
2. my wife is one of those
3. who is totally committed
4. to the family and its wellbeing.

- (1) 1 is incorrect (2) 2 is incorrect
(3) 3 is incorrect (4) 4 is incorrect

88.

1. He made me to wait
2. for him, while he
3. changed his coat,
4. as it was cold.

- (1) 1 is incorrect (2) 2 is incorrect
(3) 3 is incorrect (4) 4 is incorrect

Directions for questions 89 and 90: Look at the underlined part of the sentence below. The sentence is given three possible substitutes for the underlined part. If one of them is better than the underlined part, mark that as the answer. If none of the substitutions improve the sentence, mark no improvement as your answer.

89. The winter was such severe that even water in the taps was frozen and this created a lot of inconvenience to everyone in the family.

- (1) severe so much (2) so severe
(3) severe such (4) no improvement

90. The members of his family are coming in this train and I am sure that it will be a memorable trip for all of them.

- (1) on (2) by (3) with (4) no improvement

91. Some words are given below. In which order should they be arranged to give an affirmative sentence, so that the part of the day comes last?

AT / EVENING / AGAIN / LAST / MET / WE / HER / HOSPITAL / THE
1 2 3 4 5 6 7 8 9

(Note:- DO NOT include spaces in your answer)

92. In a class, Roll No 101 states that the plural of the word CRISIS is CRISES. Roll No 102 states that the plural is CRISISES, and Roll No 103 states that the plural is CRISIS itself.

The Roll No of the student who gave the correct answer is _____

(Note:- DO NOT include spaces in your answer)

93. There are 4 boards in a business school which have displayed the meaning of the term that means "A process in which an independent person makes an official decision that ends a legal disagreement without the need for it to be solved in court."

Board 1: ARBITRATION

Board 2: ARBITERATION

Board 3: ARBETRATION

Board 4: ARBITATION

The board that has displayed the correct spelling of the term is Board No: _____

(Note:- DO NOT include spaces in your answer)

94. In an English Test, Column A gives a word, Column B gives its past participle and Column C gives the code of the pair as below:

| Word | Past Participle | Code |
|------|-----------------|------|
| WEAR | WEARING | 1 |
| WEAR | WEAR | 2 |
| WEAR | WORN | 3 |
| WEAR | WEARED | 4 |

Which Code should Shamu choose, if he is asked to choose the correct pair of word and its corresponding past participle?

(Note:- DO NOT include spaces in your answer)

95. Four friends 1, 2, 3 and 4 are arguing on who is right in stating an English proverb.

1. states that the correct proverb is "A swarm in May is worth a load of hay; a swarm in June is worth a full moon; but a swarm in July is not worth a fly."
2. states that the proverb is "A swarm in May is worth a load of hay; a swarm in June is worth a looney toon; but a swarm in July is not worth a fly."
3. states the proverb as "A swarm in May is worth a load of hay; a swarm in June is worth a silver spoon ; but a swarm in July is not worth a fly."
4. states that the proverb actually is "A swarm in May is worth a load of hay; a swarm in June is worth a golden boon; but a swarm in July is not worth a fly."

Who is correct in stating the proverb?

(Note:- DO NOT include spaces in your answer)

Directions for questions 96 to 100: Read the following passage and answer the questions that follow.

ASSOCIATED PRESS

San Francisco August 13 2018

Google wants to know where you go so badly that it records your movements even when you explicitly tell it not to. An Associated Press investigation found that many Google services on Android devices and iPhones store your location data even if you've used privacy settings that say they will prevent it from doing so. Computer science researchers at Princeton confirmed these findings at the AP's request. For the most part, Google is upfront about asking permission to use your location information. An app like Google Maps will remind you to allow access to location if you use it for navigating. If you agree to let it record your location over time, Google Maps will display that history for you in a "timeline" that maps out your daily movements. Storing your minute-by-minute travels carries privacy risks and has been used by police to determine the location of suspects - such as a warrant that police in North Carolina, served on Google last year to find devices near a murder scene. So the company will let you "pause" a setting called Location History. Google says this will prevent the company from remembering where you have been. Google's support page on the subject states. "You can turn off Location History at any time. With Location History off, the places you go are no longer stored". That isn't true. Even with Location History paused, some Google apps automatically store time - stamped location data without asking. For example, Google stores a snapshot of where you are when you merely open its Maps app. Automatic daily weather updates on Android phones pinpoint roughly where you are. And some searches that have nothing to do with location, like "chocolate chip cookies" or "kids science kits," pinpoint your precise latitude and longitude - accurate to the square foot and save it to the Google account. The privacy issue affects some two billion users of devices that run Google's Android operating software and hundreds of millions of worldwide iPhone users who rely on Google for maps or search. Storing location data in violation of a user's preferences is wrong, said Jonathon Mayer, a Princeton computer scientist. A researcher from Mayer's lab confirmed the AP's findings; the AP conducted its own tests on several iPhones that found the same behaviour. "If you are going to allow users to turn off something called 'Location History', then all the places where you maintain 'Location History' should be turned off," Mayer said. "That seems like a pretty straightforward position to have". Google says it is being perfectly clear. "There are a number of different ways that Google may use location to improve people's experience, including: Location History, Web and App activity and through device-level Location Services" a Google spokesperson said. "We provide clear descriptions of these tools, and robust controls, so people can turn them on and off, and delete

their histories at any time.” To stop Google from saving these location markers, the company says, users can turn off another setting, one that does not specifically reference location information. Called “Web and App activity” and enabled by default, that setting stores a variety of information from Google apps and websites to your Google account. When paused, it will prevent activity on any device from being saved to your account. But leaving “Web and App activity” on and turning “Location History” off only prevents Google from adding your movements to the “timeline”, its visualization of your daily travels. It does not stop Google’s collection of other location markers.

96. For the most part, Google is upfront about asking permission to use your location information. This sentence means:

- (1) Google is not secretive about recording your movements
- (2) Google is tracking your movements even if you don’t want it to
- (3) Google is quite candid about asking you to allow it to show you where you are located
- (4) None of the option is correct

97. When the author says : “That isn’t true’ to Google’s claim that “you can turn off Location History at any time....and the places you go are no longer stored” ...he means

- (1) Although Google declares that the places are no longer stored, they automatically store time stamped location data without asking.
- (2) Google asks permission every time it stores data
- (3) Google tracks your movements and tells you about it.
- (4) The author is paranoid.

98. How many users does the privacy issue affect?

- (1) Half the world population
- (2) Two billion users and hundreds of millions of iPhone users
- (3) Data not available
- (4) Everyone who owns a phone

99. What does the author mean when he says: ‘It does not stop Google’s collection of other location markers?

- (1) Google only informs you of your location
- (2) If Location history is off, Google does not collect the location markers
- (3) If you leave ‘Web and App Activity’ on and turn ‘Location History’ off, Google can still collect the location markers
- (4) None of the option is correct

100. An appropriate title to this passage would be:

- (1) Android iPhones and Google
- (2) Google snapshot
- (3) Google tracks you, with or without your permission
- (4) Smart phones are a boon

Directions for questions 101 to 105: Read the following passage and answer the questions that follow.

Frederic Bastiat, who was that rarest of creatures, a French free-market economist, wrote to this newspaper in 1846 to express a noble and romantic hope: “May all the nations soon throw down the barriers which separate them.” Those words were echoed 125 years later by the call of John Lennon, who was not an economist but a rather successful global capitalist, to “imagine there's no countries”. As he said in his 1971 song, it isn't hard to do. But despite the spectacular rise in living standards that has occurred as barriers between nations have fallen, and despite the resulting escape from poverty by hundreds of millions of people in those places that have joined the world economy, it is still hard to convince publics and politicians of the merits of openness. Now, once again, a queue is forming to denounce openness—ie, globalisation. It is putting at risk the next big advance in trade liberalisation and the next big reduction in poverty in the developing countries. The world will find out, to some extent, next month when ministers from the 148 countries in the WTO meet in Hong Kong. The last time they gathered for such a crucial meeting was in September 2003 in Cancún, and the result was a shambles. There was a bitter row between rich countries and poor ones, and the meeting broke up in acrimony. At that stage, however, there was still plenty of time to repair the damage. For in effect, the deadline for the Doha round comes in June 2007, when the trade-negotiating authority granted by Congress to President Bush expires. But, although that leaves more than a year and a half after Hong Kong, the complexity of a negotiation involving 148 countries and scores of highly technical issues means that the deal really needs to be done during 2006, with the political framework for it set early on—which essentially means in Hong Kong. The case for selfish generosity Trade-liberalisation rounds are arcane affairs about which free-traders are often thought to cry wolf. The previous talks, known as the Uruguay round, went through lots of brinkmanship and delays before they were completed. The result was still disappointing in many ways, especially to developing countries, and yet, since the round's completion in 1993, the world economy has grown lustily and the biggest developing countries, China, India and Brazil, have all burst on to the global trading scene. Would the world really be hurt if the EU merely refuses to expose its farmers to more competition? The likeliest outcome both from the Hong Kong meeting and the eventual Doha agreement is a compromise—as always. The European position is feeble but not risible, for it has offered an overall average cut in its farm tariffs of 39%, up from 25% only a month ago, though with rather a lot of loopholes that could severely limit the benefits. France, and other European farm protectionists, may prove more flexible than they currently imply: this is hardly the first time they have promised to man the barricades shortly before striking a deal. Yet though some sort of fudge in Hong Kong must be likely, with the Americans lowering their ambition and the Europeans raising theirs a little, such an outcome would still represent both a missed opportunity and a risk. The missed opportunity is that Doha has offered the first proper chance to involve developing countries in trade negotiations—they now make up two-thirds of the WTO members—but also thereby to use a full exchange of agricultural, industrial and service liberalisations to make a big advance in free trade that could benefit a wide range of countries. Some of that progress may still be made, even in a fudged deal: Brazil, for example, stands to benefit hugely from freer trade in agriculture, so it should be willing to promote other concessions in return. India is reluctant to cut its own farm tariffs but has a big interest in liberalising trade in services, wanting more freedom in everything from finance to health care to entertainment. But if the rich world could gird itself to be more ambitious on agriculture, the gains would be even greater: help for the poorest countries, making the rich look generous; better access to the biggest and richest developing countries for western companies; and a rise in global income in a decade's time of \$300 billion a year (says the World Bank), which would thus help everyone. The risk is that failure to agree on a new wave of openness during a period (the past two years) in which the world economy has been growing at its fastest for three

decades, with more countries sharing in that growth than ever before, will set a sour political note for what may well be tougher times ahead. A turn away from trade liberalisation just ahead of an American recession, say, or a Chinese economic slowdown, could open up a chance not just for a slowdown in progress but for a rollback. Currently, for example, the Schumer bill to put a penal tariff on Chinese goods looks unlikely to pass. If American unemployment were rising and world trade talks had turned acrimonious, that might change. So might the political wind in many developing countries. If so, that would be a tragedy for the whole world. Although the case for reducing poverty by sending more aid to the poorest countries has some merit, the experience of China, South Korea, Chile and India shows that the much better and more powerful way to deal with poverty is to use the solution that worked in the past in America, western Europe and Japan: open, trading economies, exploiting the full infrastructure of capitalism (including financial services) amid a rule of law provided by government. In other words, globalisation. To paraphrase Samuel Johnson, anyone who is tired of that, is tired of life. Source: www.economist.com

101. According to the article, why is Frederic Bastiat called the "rarest of creatures"?

- (1) Because he was a German industrialist
- (2) Because he was a French who promoted a free market economy
- (3) Because he wrote to a newspaper
- (4) Because he was a friend of John Lennon

102. Who was John Lennon?

- (1) A writer
- (2) An economist
- (3) A singer
- (4) An industrialist

103. According to the article, the better way to deal with poverty is:

- (1) By giving more aid to poor countries
- (2) By reducing interest rates
- (3) By moving away from democracy
- (4) By exploiting the full infrastructure of capitalism

104. "Trade-liberalisation rounds are arcane affairs". The adjective *arcane* means:

- (1) Well known
- (2) International
- (3) Incomprehensible
- (4) Transparent

105. As per the article, India's position with respect to the talks is:

- (1) Reduced taxes for agriculture and liberalisation for manufacturing sector
- (2) Reduced taxes for agriculture and liberalisation for services sector
- (3) Higher tariff for agriculture and liberalisation for manufacturing sector
- (4) Higher tariff for agriculture and liberalisation for services sector

(3) D Shriram, Rahul Kumar Jain (4) K Sridharan, Shyam Kumar Jain
- 119.** In October 2018, _____ received the Champions of the Earth, a top United Nations honour that recognises contribution in the field of environment and environment protection.
- (1) Shri Narendra Modi (2) Shri James Hansen
(3) Shri Bill McKibben (4) Smt. Vandana Shiva
- 120.** In September 2018, _____ was appointed as the Vice Chairman of the University Grants Commission.
- (1) Prof. Satish Chandra (2) Prof. B. Ramachandra Rao
(3) Prof. Rais Ahmed (4) Prof. Bhushan Patwardhan
- 121.** In December 2017, _____ bought Foodpanda India from its German parent Delivery _____ in a stock deal pegged at about \$30 Million, entering a resurgent food-delivery market that has matured and become more competitive.
- (1) Ola, Hero (2) Swiggy, Siemens
(3) Zomato, BOSCH (4) Uber, Volkswagen
- 122.** In October 2018, Dish TV- India's first and largest direct-to-home (DTH) company, signed up _____ as its brand ambassador as it is planning to woo the younger audience with its largest brand campaign.
- (1) Ranveer Singh (2) Sharukh Khan
(3) Ayshman Khurana (4) Tiger Shroff

123. Who is the person shown in the picture below who won the Ramon Magsaysay Award 2018?

- (1) Sonam Wangchuk (2) Tenzin Rabgay
(3) Rinzin Wangmo (4) Namgutzbhutia Dorji

124. The Nobel Peace Prize 2018 was awarded jointly to _____ and _____ for their efforts to end the use of sexual violence as a weapon of war and armed conflict.

- (1) Denis Mukwege, Naida Murad (2) Denis Margo, Naida Moralis
(3) Denis Gurang, Nadia Posche (4) Denis Levis, Naida Johnes

125. From the beginning of 2018 which of these sectors has been allowed for automatic hundred per cent foreign direct investment (FDI) in India?

- (1) Multi Brand Retailing (2) Defence Manufacturing
(3) Banking (4) Single Brand Retailing

126. The 2018 Asian Games were held in how many cities of Indonesia?

(Note:- DO NOT include spaces in your answer)

127. The Ministry of Agriculture and Farmer Welfare launched the Krishi Kalyan Abhiyan from the ___th month of 2018 which could lead and advise farmers on the means to improve their farming techniques.

(Note:- DO NOT include spaces in your answer)

128. What was the rank of India in 2018 United Nation World Happiness Index Report?

(Note:- DO NOT include spaces in your answer)

129. ___ was the number of seats won by the party who got majority in Chhatisgarh in recent 2018 Vidhan Sabha elections.

(Note:-DO NOT include spaces in your answer)

130. How many persons were awarded the Nobel Prize in Economic Sciences in 2018

(Note:- DO NOT include spaces in your answer)
